

Ideation Phase

Define the Problem Statements

Date	27 June 2025
Team ID	LTVIP2025TMID33870
Project Name	Pattern Sense: Classifying Fabric Patterns using Deep Learning
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1:Manual Fabric Pattern Classification in the Textile Industry	I'm a designer struggling to find harmonious color palettes for my textile designs.	I'm trying to create visually appealing patterns that capture the essence of nature.	But I'm facing difficulties in selecting colors and fabric type that work well together .	Because I lack a systematic approach to color selection and pattern creation.	Which makes me feel frustrated and uncertain about my design and fabric type choices.
PS-2:Lack of Scalable Tools for Pattern Recognition in Design Applications	I'm a hobbiest crafter looking to create unique and personalized gifts.	I'm trying to design custom patterns for fabric,paper or other materials that reflect the recipient's personality.	But I'm struggling to balance colors,shapes and textures in a way that creates cohesive and visually appealing design.	Because I don't have a clear understanding of how to apply pattern design principles effectively.	Which makes me feel disappointed and unsure about my crafting abilities.
